PROJECTS

Historical Places in india

Using HTML and CSS, I have made a web page about historical Places in India. And I have included some pictures of historical locations in this project, along with a succinct description of each location.

Weather Forecast APP

In this project, I have made a Weather Forecaster app by using HTML, CSS, Java Script and NodeJs. And in this, we can search a different types of cities and their Temperature, Humidity, Due Point, sunrise, and Sunset for the next seven days.

Portfolio

Using HTML, CSS, and Java Script, I created a portfolio of myself for this project.
